

Changes to the Car Circulation Unified Tax (IUC) in Portugal for 2026

From 2026 onwards, the IUC in Portugal will undergo significant changes regarding the payment schedule and timing, with the aim of simplifying and making the fulfilment of this tax obligation more predictable.

The image features decorative curved lines in the top right and bottom left corners. These lines are composed of multiple overlapping layers in shades of light blue and light green, creating a sense of depth and movement.

The IUC is an annual tax charged on the ownership of registered vehicles in Portugal – cars, motorcycles etc. Even if the vehicle is not used, if the registration is in the taxpayer's name, the tax is due. Until now, the tax had to be paid annually in the month of the vehicle's registration.

In 2026, Portugal's Vehicle Circulation Tax (IUC) will have a unified payment schedule. Amounts up to €100 must be paid by February, and higher amounts can be split into two instalments (February and October).

Nominaurea supports its clients in adapting to these changes, ensuring compliance and financial planning efficiency.
